Network Camera

81AD

"HUNT always provides you the best."

The clear and sheer 1600 x 1200 (2M) picture can display more details comparing to the cameras with 1.3M resolution, as well as It also provides broad and substantial image and picture. Furthermore, the 81AD can apply different lens because of the CS-mount. Subsequently, the two ways audio, 1 in 1 out I/O, video out, and SD card support are more convenient for satisfying the different requirements and demands of the users and consumers.

- 2M-Pixel CMOS Sensor (up to 1600 x 1200 resolution)
- CS mount lens support
- H.264/ JPEG / MPEG4 compression format support
- SD card backup can be implemented while the network is disconnected or alarm situation
- 2-way audio (Duplex)
- Power over Ethernet available
