LILIN

The World's first range of ONVIF conformant IP products

As one of the World's largest CCTV manufacturers, LILIN has expertise in development, design and production of every crucial CCTV component. For nearly three decades companies from around the world have turned to LILIN for CCTV solutions that deliver exceptional value and performance.

ONVIF has created a global standard for network video products, ensuring interoperability and freedom of choice. This standard defines how cameras communicate IP Video to other devices; such as Network Video Recorders and Video Management Systems.

LILIN ONVIF IP Cameras

Users will be able to select ONVIF conformant products from any manufacturer for future proof interoperability.

Any ONVIF conformant VMS

Any ONVIF conformant NVR

Any ONVIF conformant Analytics

LILIN were the first company in the World to deliver ONVIF compliant products and now offer an extensive range of cameras, domes and servers.
- As market leader we are keen to support other companies in achieving ONVIF compliancy and offer a developer programme to assist potential partners.
- We are committed to standards and believe they are crucial for the transition of video to IP.
- We will deliver a full range of compliant products over the coming months.
